COAT OF ARMS

There exist at least five versions of the Hascoll or Haskell coat of arms, each by different artists upon which are found three distinct and different mottoes as follows:

"Cragnez Honte-agmey Loyante"

"Vincit Veritas"

"Gardez Bien"

The General Armory of England, Scotland and Wales, by Burke, London and published in 1878 - states on page 465 the following:

"Haskell, Vaire ar (another or) and sa.

Crest on a mount an apple tree fruited ppr."

Rev. Wm. Garrison Haskell of the Bates Street Universalist Church, Lewiston, Maine studied the coat of arms and its background in 1878 and subsequently reached these conclusions which are quoted from the Haskell Journal, viz.

"First, the Escutcheon of Norman a shield
L'ancien"

"Sable the most ancient among colors, compounded with argent, means famous -"

"It is without charge or devise, implying
anciently highest honor."

Continued, he gives the legend of the crest with the comment "the helmet engraved closed being for an esquire or gentleman"- and "whereas for a knight it should be Beavor up"

Crests also show different artists ideas of apple trees from the espalier to a large symmetrical type. It is significant that it is common to have seven apples thereon.

A long time ago somewhere and sometime, I know not, there originated a class of people. I do not know whether to call them a tribe, clan, nomads or wandering gypsies. At any rate, they moved from place to place, not very well fixed and not very stable. I do not know how intelligent - as much so as the average - I think. Some leaders, some followers, some puchers, some kickers and some pullers. Almost all classes, no criminals or outlaws as yet discovered. Most of them a very desirable class of citizens and very temperate in all their ways. A few of them as they advanced in intellect and leadership became public officials and school teachers. Some round heads, some flat heads, some shiny heads, some brown heads and some toe heads. So you can see there were nearly all classes and colors.

These people I am trying to tell you of are known as Haskell Indians. Be that as it may, the name Haskell means "The Marsh" and is spelled various ways. According to some authorities of Welsh origin, but to other authorities it traces back to Norman sources. The family is said to be decended from a companion of Wm. the Conqueror and to be of Norman French stock.

Roger Haskell with two younger brothers William and Mark came to Salem (now Beverly) Mass. from Bristol, England in 1635. Roger was a mariner engaged in fishing with a fish house on Winter Island in Salem Harbor. Roger married Elizabeth Hardy in 1639. She died in Salem in 1667. Now this couple, Roger and Elizabeth, are nine generations back from the older Haskell's here and we are direct decendents of Roger. Now coming on down in direct line from Roger, he had a son Mark born in 1650 and died in Rochester, Mass., in 1699. Mark was living in Salem when the witchcraft hysteria broke out in 1692. He was summoned to act as a juror in a witchcraft trial but being utterly opposed to such proceedings he determined not to mix up in them so on the night before the trial was to take place he packed his saddlebags and rode away. Hence his name "Witchcraft Mark". Mark married Mary Smith in 1671 and they had a son John born in 1681. I do not know how old he lived to be. John married Mehitable Clark. They had a son John born in 1709 and who died in 1791. John married Ruth Sprague and she was of Mayflower decent. They had a son named Timothy born in 1737 in Rochester and who died in 1820. Timothy married a Deliverance Hatch in 1761. They had a son Moses born in 1762, died 1836 in Berlin, Vermont. Moses married Hannah LeBarron in 1788. She was of French decent. The first LeBarron in America was a very romantic person and a French Doctor. He was the first doctor in Plymouth. He would never tell of his ancestry and was a highly educated person. Now here is where we get our French blood. The first settlers of Calais, Vermont came in the spring of 1789 from Mass. Moses and his family being some of them. So you see now they begin to wander and leave the state of Mass. Moses and Hannah had a son Jera born 1806 and died in Wisconsin so he was a long way from home. Jera married Sabrina Temple. They are Grandfather and Grandmother to us older Haskells. Their children are five in number, William, Marcus, Gardner, Oliver, Hannah and one-half sister Aunt Mary Wishard.

Now we are down to the Haskell's whom some of us know and remember. As I said awhile ago, there are all colors and classes. Some Doctors - John H. - and then there is a doctor in Minnie Haskell Wheeler's family - and there are a number of ministers - Jera, our grandfather, Royal, his brother, and they were members of the Christian Church and were quite instrumental in building up the Christian faith in Vermont.

Then those who studied law and became lawyers - but I know of only one - Robert Haskell Harper - Etta Haskell's son - and some and the

greatest number have been or are now farmers -- and last, maybe not least, I don't know, there were and are still a few school teachers.

This brings us down to the Haskell's you all know - good or bad-

"There is so much good in the worst of us,
and so much bad in the best of us,
That it ill behooves any of us,
To speak evil of the rest of us."

Leander B. Haskell

There are known to be over 5,000 Haskell's in America. It is claimed that their ancestry can be traced back to one "Oskitel" a Norseman who ravaged England in the ninth century. His descendants settled in England. The family setting is said to have been "Rowlston Castle". However, one of them a Roget de Heishel went to France with the Duke of Normandy to whom Roget presented a refreshing apple to during the battle of Hastings in 1066. William, Duke of Normandy, after the battle of Hastings became Wm. the Conqueror and later King of England. Roget was knighted and given as a crest an apple tree fruited proper (7 apples). Later that day he was mortally wounded by an arrow and the tree on our crest is shown pierced by an arrow. In the Battle of Abby Roll of the great Normans occurs the name Roget Beaumont de Heishel and this name seems to have been preserved in the long line of Rogers in after generations.

Through our line we are eligible for membership in The Mayflower Society. Four lines are approved. We are descended from the following passengers on the Mayflower: Richard Warren, Francis Cooke, Stephen Hopkins and Edward Doty. We also have many Colonial and Revolutionary ancestors and are eligible for membership in the S.A.R. and D.A.R. Through Sabrina Temple we are descended from Lady Godiva.

HASKELL FAMILY

Charlton-Musgrave -Wincanton, Somerset, England

William Haskell Churchwarden here 1627- buried here in May, 1630. Wife was Elinor. His widow married John Stone although no record of the marriage has been found. No other Haskell records in the register before or thereafter given except a Mark Haskell who was living in the parish in 1623 - aged 50. Perhaps Father or Brother of William.

Register shows children baptized as follows:

Roger	March 6, 1613-14
Cecille	June 5, 1616
William (Hascoll)	Nov. 8, 1618
Mark	April 8, 1621
Dorothy	Nov. 16, 1623
Elizabeth	April 30, 1628
Joan	March 1, 1628-29

John Stone brought his wife Elinor and her four children, Roger, William, Mark and Joan Haskell to America in 1635. There is no other information on her other children. They anchored in North River off Massey's Cove. The Haskell Family went to Beverly, Mass., with the "Old Planters". The Haskell farm lands were at or near the head of the tide-water of the "Basse" or Bass River. This river is now known as Beverly Creek and ends at the property of the United States Shoe Machinery Co.

Alex Miller and Mary Haskell

Alex Miller and Mary Haskell were married on Dec. 31, 1893 in Mt. Ayr, Ind., at the home of Father Haskell. A very quiet wedding with just the immediate family being present.

We went to housekeeping on the William Wishard farm 1 mile west of Mt. Ayr with another family by the name of Cal Farris and lived in with them just seven weeks and then rented a little cottage in Mt. Ayr and moved in to it. Lived there until Oct. 1, 1894 when we moved down with Father Haskell to stay with him.

On Oct. 31, 1894 our first baby came - a little girl we gave the name Pauline. She is now Mrs. John Perry of Richland Township, Whitley Co., Ind.

March 1, 1895 we moved onto Sam Long's place $2\frac{1}{2}$ miles south east of Mt. Ayr. We lived on that farm four years. In 1896 our second baby a boy. Were we proud, especially so, his Dad wanted to give him the name McKinley but I didn't see it that way so we gave him the name Roy Hobart after the vice-president.

In March 1900 our third baby a little girl and we called her Margaret after Grandmother Haskell.

In 1903 Alex bought a farm in LaGrange Co., Ind. Uncle Sam moved on that and lived one year and then he traded that place for 200 acres in the edge of Michigan with two sets of buildings. Sam moved in one house and we moved in another. We just lived on it one summer, sold it and bought an 80 acre farm near Silver Lake. We moved in to a little house on the edge of Silver Lake owned by Charley Carter. Then in the spring of 1905 we moved on our farm south east of Silver Lake.

In 1906 our fourth baby came to our house a little girl. We gave her the name of Winona.

In 1908 another son came to bless our house on Sept. 15 - Uncle Lee's birthday so we named him Leo Edward.

We sold out in 1908 and came to Whitley Co. and bought 110 acres - the old Bowerman farm. Lived on that just one year, moved there in the spring of 1909.

The same year we sold it and went to Wills Co. and bought a farm on the banks of the Wabash. We lived there just one summer and sold it and had a sale and went back to old Newton Co.

We rented Will Millers farm of 200 acres and lived there for three years. Will Miller took his family and went to Calif. to spend three years but got home sick and came back and wanted his place. We let him have it and bought another farm in Whitley Co. - the Walters farm out three miles on road 30. We lived there 4 years and traded it for a farm just $\frac{1}{2}$ mile up the road - the Mosher farm. Lived on it for one year and traded it for a farm 1 mile south of Mentone. Lived there one year and traded it for Henry Worden's farm 1 mile so. of Coesse in 1915.

Moved there in 1916 and in 1918 Alex was elected trustee of Union township. In 1920 we moved to Coesse to take a rest. When his time expired we went back on the farm and lived there until 1936.

We sold out our farm and bought the property where we now live.
So this is the matrimony ship that Alex and Mary started in 1893.

In our 50 years God has blessed us with 5 lovely children, 17 grandchildren and only 2 great-grandchildren. Only two deaths - both accidental. Paul Alexander Perry fell from a barn loft on the Peabody farm southeast of Columbia City and the fall proved fatal and he was 12 years old. And Hobart Elsworth a brother of Paul's both sons of John and Pauline Perry.
